 Foundation Breeder

NL 8912774-89 - MR. UNIVERSE. As simply stated by Ad Schaerlaeckens of Holland, "MR. UNIVERSE is the very best breeder and racer combined to ever go to America." There is no other bird in America that Ad would rather have. MR. UNIVERSE comes from an unbelievable family but first his racing accomplishments:

- 4th Nat. Ace Pigeon of All Holland 1991 - Long Dis.
- 1st Golden Crack - Long Distance
- 2nd Place National La Souterraine - 8460 birds
- 20th Place Limoges - 6297 birds
- 40th Place Chateauroux - 16,834 birds
- 213th Place Montlucon - 11,273 birds

MR. UNIVERSE is also the father to LA SOUTERRAINE (NL 9045677-90) which won 1.) 1st National La Souterraine in 1992 with 9093 birds competing and 2.) 18th Chateauroux of 16,834 birds. Another son of MR. UNIVERSE won 7th Orleans with 6,000 birds competing.

A full brother to MR. UNIVERSE was crowned the 1st National Ace Pigeon of All Holland 1991 - Long Distance. These are 350 - 500 mile, one day races. One of the best breeding cocks to ever come to America.

Belg 4001836-94 - GOLDEN WINGS 36. Full sister to GOLDEN WING (Belg 4623315-88) - winner of 7th International Barcelona in 1993 against 33,145 birds, placing 121st in the 1994 International Barcelona race against 26,807 birds and 324th in the International Perpignan race with 14,283 birds competing. Plus many other top prizes. GOLDEN WINGS 36 has everything she needs to be the top breeding hen to anyone's loft. Already a top producing hen - dam to several top prize winners and a 360 mile 1st place winner this year. A very special hen.
